DESCRIPTORS *Bibliographies; Federal Government; Indexes (Locaters); Political Influences; *Reference Materials; Science Education; *Sciences; *Social Influences; *Technology

ABSTRACT

This document provides references to recently published materials on the social and political aspects of science and technology available for examination in the collections of the Library of Congress. These published materials include: selected texts; handbooks, encyclopedias and dictionaries; bibliographies; government publications; abstracting and indexing services; journals and selected journal articles; and selected materials. Information supplied for each entry, where applicable, includes author, title, publisher, publation date, number of pages, and Library of Congress catalogue number. The subject headings used by the Library of Congress are provided. (BT)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

SCIENCE AND SOCIETY

Compiled by Stephen B. Dresner

TB 77-6

February 1977

SCOPE: References to recently published materials on the social and political aspects of science and technology available for examination in the collections of the Library of Congress.

SUBJECT HEADINGS, used by the Library of Congress, under which books on science and society can be located in most card and book catalogs include the following:

SCIENCE--SOCIAL ASPECTS
SCIENCE AND STATE
TECHNOLOGY--SOCIAL ASPECTS
TECHNOLOGY AND STATE
TECHNOLOGY ASSESSMENT
TECHNOLOGY TRANSFER
STATE ENCOURAGEMENT OF SCIENCE, LITERATURE, AND ART

SELECTED TEXTS
